# QleanAir FS 70 SRE – Powerful and efficient solution for smoking rooms

**Inlet:** Dual protected inlets for safe and quiet operation in smoking rooms.

**Filtration:** Multi-stage mechanical particle filtration and high capacity activated carbon filters.

**Outlets:** Cleaned air is recirculated in the room or directed outside.

Model	FS 70 SRE
Color	
Dimensions (w x h x d)	736 x 1566 x 743 mm
Dimensions on wheels	736 x 1652 x 743 mm
Material	Powder coated sheet metal
Weight	157 kg
Installation	Stationary, mobile
Performance levels	Seamless
Graphic display	Yes
Alarm functions	Filter full/Fan failure/Safety shutdown
Airflow	Up to 2000 m <sup>3</sup> /h
Pre-filter	ePM1 60% (F7)
Gas filter	Activated carbon
Main particle filter	E10
Sound level	<30-63 dB(A)
Power supply	200-240V, ~50-60 Hz, 3.3A
Energy consumption	9-730 W
Certifications and compliance	   

## High capacity solution for larger smoking rooms

The FS 70 SRE is a powerful air cleaner specifically developed to improve the air quality in smoking rooms. FS 70 SRE effectively removes particles and gases in cigarette smoke from the air, using a multi-stage mechanical filtration technique as well as high-capacity activated carbon filters. The dual inlet of the FS 70 SRE is specifically designed for safe and quiet operation in smoking rooms. The outlet of the FS 70 SRE can either be configured for recirculation in the room, for distribution to the outside or through a combination thereof. By distributing the air to the outside the FS 70 SRE also generates the negative pressure that is needed in smoking rooms.

## The QleanAir Difference

With a significant impact on health, performance, and quality there are few things as important as clean air. We deliver clean air as a service with hassle-free installation, maintenance, upgrades, and filter changes. With our unique Lifetime Performance Guarantee, we can guarantee your air quality over time.
